Welcome

Welcome to the very first edition of the Newhaven College Parents and Friends Association (PFA) Business Directory.

We hope that this directory helps you to source a business or tradesman that suits your needs and that you know is a proud sponsor of the College. The 60 plus businesses listed here are all run by parents and friends of the College and we thank them all for choosing to advertise in this new initiative.

The PFA raises funds to provide much needed equipment for the school. In the past few years the PFA has purchased a defibrillator, provided funds for equipment for both the kitchen and the building and construction area in the new Trade Skills Centre. Our latest purchase was a trailer barbecue which is fully mobile and can easily be moved from one campus to the other.

For those businesses who missed out this year but would like to be included, we plan to release a new directory every two years.

Sue Bailey
President,
Parents and Friends Association.

Adults and Children alike can benefit from this fast, safe and empowering therapy.
Danielle Aitken has assisted many people to free themselves permanently from unwanted issues and behaviours such as;

- Smoking
- Weight issues
- Phobias
- Depression
- Self-harm
- Performance issues
- Insomnia
- P.T.S.D.
- Addictions
- Poor family relationships
- Ineffective study habits
- Panic Attacks
- Low self-esteem
- Nail biting
- Anxiety
- Bed wetting

She has also had great success in the symptomatic relief from many medical conditions such as:

- High blood pressure
- Skin disorders
- Gastrointestinal upsets
- Autoimmune disorders

Danielle also offers **Hypnotherapy for Pregnancy and Childbirth** which empowers women to achieve the most positive outcomes: before, during and after childbirth. She is passionate about the potential of the human mind, and each individual’s ability to easily and effectively transform their outcomes. She has worked in the Health industry for over 3 decades in various roles as a Registered Nurse, Registered Midwife, IVF Patient Care Co-ordinator, Counsellor and Hypnotherapist and draws on this experience in her Private Counselling & Hypnotherapy practice to achieve the most positive results for her clients.

**Clinical Hypnotherapy** is a safe and natural form of fast effective therapy that can be used to access our ability to produce positive change in our lives.

**Counselling** is confidential. The process involves talking with clients in ways that help empower them to rediscover their own potential to find the solutions that best suit their individual needs.

Get back to nature and learn how our ancestors used to live.

Learn how to make a shelter, light a fire with sticks, make rope out of plants, make basic utensils out of wood, even how to cook in an underground oven.

Learn to study the different animal groups (birds, mammals, butterflies, beetles and other invertebrates) using a scientific methodology.

Study the fauna found in rock pools, beaches, ponds, sand dunes and forests.

Nature is the best teacher and greatest classroom so join us in a fun, hands-on learning experience and let's get back to nature.

**EQUIPMENT:** is supplied and includes: night vision cameras, telescopes, binoculars, microscopes, butterfly nets, pooters, magnifying glasses, insect collection nets and much more.

**WHO:** Anyone 8 years and over who loves the outdoors.

**SIZE:** Maximum group of 10.

**WHEN:** Saturdays and Sundays from two to four hours depending on the activity and after school for two hours.

**HOW MUCH:** $30 per session

**CONTACT:** For more information contact Inigo on 0448 716 521 or email: wildphillipisland@gmail.com

www.wildphillipisland.blogspot.com
WHO IS BEHIND IT: My name is Inigo. I have a Degree in Environmental Conservation and a Masters Degree in Wildlife Management and Conservation. I have worked in environmental conservation and education in the United Kingdom and Spain for many years and have recently moved to Phillip Island. I am captivated by its wildlife, history and as an island it is very interesting to look at its future.

THE PROJECT:
This is an on going series of workshops that will introduce students to the natural world around them. Small groups of students with an interest in nature will learn about the local fauna in their immediate environment and gain a scientific perspective on what they see and do.

Students will carry out scientific experiments; learn to use the microscope, stereo microscopes and other relevant equipment used by any keen naturalist.

In order to appreciate the value of nature, students will be given the unique experience in how neolithic people used to live and survive on the land.

This is a fantastic opportunity for those who want to pursue a career in nature conservation.

Join us, explore, learn, discover, enjoy, meet other people and GET BACK TO NATURE.

For more information contact Inigo on 0448 716 521 or email: wildphillipisland@gmail.com www.wildphillipisland.blogspot.com
