[NIE | Pathways into Medicine and Dentistry Live Webinar](#)

April 22, 2024

This forum is an excellent opportunity for teachers, students and their parents to find out about the UCAT, pathways into medicine, and have all questions answered by an expert teacher who has been working in the field since 1999.

The session is packed with invaluable information during which we will be covering the following topics, and more:

- What is UCAT? UCAT scores? UCAT Sub-tests?
- Year 10, 11 and 12 – things to consider now.
- The Undergraduate Selection Criteria
- Application process into universities for medicine and dentistry
- When and who can sit the UCAT
- GAMSAT
- Can you prepare for the UCAT?
- Undergraduate interview process
- What, how and why about Gap Year?
- Alternative degrees and career choices
- Work experience advice
- Q & A

Study Tips

[Resources to help with Year 10 subject selection](#)

Are you heading into senior school and needing to select the subjects you'll be taking in those crucial final years? We know it can all seem a bit daunting – that's why we've put together some useful resources to help with your Year 10 subject selection options. Take a look.

Before you do anything else...

First of all, we recommend you ask your teachers what information your school provides. They've been doing this for a long time and have probably heard any question you could possibly ask, so they'll more than likely have heaps of ways they can help.

You might also like to read former Australian Chief Scientist [Alan Finkel's advice to Julie in Year 10](#). It could put you in the right mindset and help you prioritise better.

Resources to help with Year 10 subject selection

There are lots of experts out there with information and tools that could help you with subject selection. If think you need more guidance, check these resources out.

Tertiary Admission Centres (TACs)

As the people in charge of university admissions, TACs have lots of information that can help you choose the rights subjects for your dream degree. Take a look at these resources:

- QTAC publishes the [My Path Guide for Year 10 Students](#) – scroll down to find the link to download the most recent version.
- UAC's [Steps to Uni Guide](#) provides a handy list of things to go through when considering your subejcts. You can also check out [Subject Compass](#) tool, which can help match subjects with your interests and future study preferences.
- VTAC has a handy [Year 10 Guide](#) that goes through tertiary study options, ATARs, prerequisites, scaling, and more.
- SATAC provides information for [students in Years 10 and 11](#).
- TISC will be publishing their Guide to University Admission 2027 in May – keep an eye out for it [here](#) (look under the tab called “WACE Students”).
- UTAS have information on their website for [students in Year 10 and below](#), plus more handy info on their [ATAR admissions page](#).

Universities

Lots of universities provide information about Year 10 subject selection and pathways to university. Here are a few that we've found:

- The University of Queensland's [Year 10 Subject Selection Guide](#)
- The University of Sydney's [Year 10 Guide 2025](#)
- Curtin's [Year 10 Guide](#)
- JCU's [Information for Year 10 Students Brochure](#)
- Deakin's [Guide to University for Year 10 Students](#)
- ACU's article [How to choose what to study in years 11 and 12](#)
- Notre Dame's [Year 10 Subject Guide](#)
- Monash's [Guide to Entry for Year 10 Students](#)
- Charles Sturt's [Year 10 student resources](#), including their guide and careers quiz

Keep in mind some of this information is only relevant for gaining entry to a course at the university that made the guide, so make sure you check prerequisites and advice available for any other specific courses and institutions you have in mind.

Calling the future students office at individual universities with any questions can also be a great way to help you decide on which subjects to take.

Education Departments

All education departments provide resources for Year 10 subject selection, but you're best speaking directly with your school for more detailed information. Nonetheless, it could still be worth taking a peek

at the information provided by other states too – they sometimes have resources you might find more appealing or informative.

- QCAA's [planning your pathway](#) page has loads of information about the Senior Education and Training (SET) Plan
- Learn about the [Exploring Identities and Futures \(EIF\)](#) subject you'll study as part of your SACE, or check out their [Subject Planner](#)
- NESA provides [advice for students choosing HSC courses](#), as well as information on the compulsory [HSC: All My Own Work program](#)
- Get a copy of WA's SCSA [Year 10 Information Handbook](#)
- Tasmania's DECYP have produced a [Year 11 and 12 Student Guide](#) which might answer some of your questions

Jobs & Careers

[Interested in sport? Consider these careers](#)

If you eat, sleep, and breathe sports, then you might be considering a career in your favourite field. Right off the bat, most people think, "Great – I'm going to be a professional golfer or a football star." And while those professions are undoubtedly exciting, they can be difficult to attain. Luckily, they aren't the only options out there. In fact, careers in sport are just as diverse as the games themselves, with options that include administration, sports science, journalism, and more. So let's explore some exciting sports-related career paths you might like to consider.

Sports Journalist

If you have a passion for both sports and writing, sports journalism might be right up your alley. As a sports journalist, you could cover everything from local competitions to professional sports. Plus, you can choose from many different mediums, including print, television, radio, or digital platforms.

Sports Agent

If you're a savvy negotiator and enjoy managing relationships, consider becoming a sports agent. An agent's role is to represent the interests of athletes, assist with contract negotiations, and offer career advice.

Sports Psychologist

If you love understanding the human mind and how it affects performance, a career in sports psychology could be for you. In this field, you'll work on improving athletes' mental health and helping them hone their focus, dealing with performance anxiety, and even overseeing their recovery from injury.

Coach

Do you have a deep understanding of your sport and enjoy teaching others? Coaching is a fantastic route. As a coach, you could work with athletes of all ages. Your responsibilities would extend far beyond the playing field, to mentoring and guiding athletes toward their goals, both on and off the field.

Fitness and Nutrition Advisor

With an interest in sports, you're likely familiar with the importance of proper diet and exercise for optimal performance. As a fitness and nutrition advisor, you'd have the opportunity to guide and instruct athletes on how to maintain a balanced diet and perform exercises that would cater to their specific sports.

Sports Physician or Physiotherapist

Do you have an interest in medicine? Combining that with a love for sports could lead down a rewarding path. Sports physicians and physiotherapists work to treat and prevent injuries in athletes and assist them in their recovery process.

Sports Event Planner

Behind every major sports event lies a team of experts ensuring the program runs smoothly. As a sports event planner, you would coordinate the logistics and manage event operations – a great choice for those with strong organisational skills and attention to detail.

Find out more

Even if you don't make your career on the playing field, there are still so many ways to carry your passion for sports into your professional life. Using a blend of your passion for sports, your knowledge, and your skills, the possibilities are just about endless.

You can learn more about heaps of different careers and pathways on our website [here](#).
